Camp Lattikella,
Kanara District
January 29th 1890

Sir,

In reply to your telegram of 25th Inst. the honor to inform you, I wired:— "your telegram twenty-fifth. Grund is correct second paragraph [of my report] fixes yield of whole area from Nagargali to Grund: see also paragraphs 42 to 45 [of my report]."

2. I was ordered to give an estimate of the probable yield of the tract to be tapped by the proposed

REC'D FEB: 1 1890

railway. The proposed railway is from Nagargali to Gund; but considering that no Gerrard's estimate and survey of a line only extend as far as Potōli, and that the country beyond is very difficult, I thought it advisable to report on the yield of the area in 2 sections.

3. If the railway be stopped at Potōli (21 miles), the whole length of the line could be utilized for the transport of timber brought from the forests west of Potōli and Shirōli, while produce from Ambgi, Jambgi and Kulgi and the forests to the East and North-East of Kulgi, would be put on the line at the

crossing in Kundarkoj

4. Cuttings are now being carried out in the Kundarli-forest, which is the nearest unworked jungle to Potoli and Hatia. It has been partly worked and the cuttings must now be some 4 miles distant from Potoli.

5. In the 45th para of my report 3958 of 23d December last the yield for the area from Gund to Nagargali is given; in the 46th, that of the jungle west of the Kāneri alone is given, and in the 43d that of the area East of the Kāneri alone is given.

31.8.90.

The results of the estimate

are valuable. There appears

to be an annual output

of 18,000 tons. If this can

all be put on the market

it will mean a good busi

ness & would employ the

Railway fully not counting

bamboos firewood &c.

The question then is a purely

commercial one. The Railway

will give command of any

number of markets. What

quantity of timber at what

prices could be sold in

each so as to give a net

Revenue to Forest
greater than the present
revenue -
It seems quite clear that
if we have an annual
yield of 150,000 tons it would
be a great mistake to not a
big as well the whole as far
as we can get prices.
The immense benefit to
the people generally of
cheap pennys but the
material must not be
overlooked.
Copy of the Const. para

2. The result of the Estimate furnished by the Chief Engineer to the annual amount of 18,000 Yards, with counting Breaks, forced at 8%. If this can all be put on the mark it will mean a good business & we can keep the Railroad fully. The Railroad with your command

Sir,

With reference to your cir

542, dated 25th February 1890, c

the subject

as per marg

I have the

honour to report as follow

after consulting dealers

others here on the subject

The market value of

timber at Haliyal in Kar

average

Estimated annual yield of the forests to be tapped by a railway from Gund to Kargigatti

in crage years as follows:-

Teak 20 Rs a candy or Rs 80 a ton.

Matti 15 Rs a candy or Rs 60 a ton.

Blackwood 15 Rs a candy or Rs 60 a ton.

Sandal and other kind 12 Rs a candy or Rs 48 a ton.

The average annual timber sale amounts in a good year to 2,000 tons of teak, 571 tons of Matti and 250 tons each of Blackwood and sandal.

This year [illegible] at Haliyal fetched in all Rs 2,35,000 - chiefly teak.

For teak, which is marketed at Haliyal at Rs 80, per candy, we could get Rs 130 at Bijapur Gadag or other places, the extra cost of carriage being from

Rs.

Rs 2 to 3 a ton. The Kalaw-
-wak is superior to the
teak that is imported
from Burmah.

About 1 lakh candies
could be sold at Bijapur
Gadag and other places
above ghauts, supplied by
the Railway at an average
price of ~~Rs~~ Rs 30 per Candy,
the railway fare being
2 to 3 Rs a ton or 8 to 12 annas
a candy. The average price
of ordinary teak logs at
Kalipal is from Rs 2 to 25 Rs
a candy, and I, therefore
think that Government
could well afford to Export
teak to places above ghau

the raiway.

There is little demand for Blackwood above ghauts: yet it would be sold at Bombay. It fetches from 2 to 15 Rs a candy at Haliyal, yet the price in Bombay is higher. The price here remains low on account of the small

Good Blackwood

in [illegible] woma-pieces brou Rs 25 to 30 per candy.

Matti could be sold above ghauts up to 10,000 candies at Rs 15 to 20 a candy.

Kindal is sold at Haliyal at 9 to Rs 10 a candy. It is often purchased above ghauts at a higher price by people

who

who do not know
of the wood, there would
be a sale for it as a cheap
wood but it is not to be found
as matti.

Rauia would sell from
10 to 15% a candy above what
as there is a good demand
for it.

There is not a great
demand for Jamba. Natives
do not use it for rafters but
only for posts. It is used
for sleepers and posts as it
last long in the ground
but as remarked above
there is not a great demand
for this wood from private
persons.

kerosene. For Exposure it
is next to teak. It is used
by the Southern Mahratta
Railway for sleepers, and
would fetch from 10 to 12 Rs
a candy.

The general opinion
of Mr Jones and other (* Conservator Forest Bombay
Contractors is that a number
of Gadwal Bijapur could
be found for the better
kinds of wood like
teak matti kindal and
for blackwood at Bombay
to the amount mentioned
in para 41 of the report
of the Conservator of Forests.

No doubt there would in time, also be a sale for the other kinds from below Rawa downwards – only as they are little known in the plain country, it is difficult to say what the market value would be.

I have the honour to be,

Sir,

Your most obedient

Servant

Returned with compliments to the Commissioner S.D.

I see no harm in his establishing timber-depôts at Bijapur and Gadag provided the wood be sold by auction. If it is not sold by auction private enterprise will be hampered, and the sales of the bulk of the girds at Nagargali (or wherever the junction of the proposed fresh railway with the

Southern Maratha Railway

effected in consequence.

"I have the honour to forward a report received from the Collector of Kánara to whom my predecessor referred your letter No. 1013, dated 7th February 1890. Mr. Blathwayt appears to think after consulting experienced contractors that there would be no difficulty in disposing of the amount of timber mentioned by the Conservator, S. C., as the ordinary yearly outturn at profitable prices.

"2. The whole country is so new to me that I feel no opinion of mine would have much weight; but I think Mr. Blathwayt has rather understated the market prospects of conveyance by railway than taken too sanguine a view, as he has not taken into consideration such probable large markets as Sholápur and Bellary

"3 I believe myself that a *viva voce* discussion is far preferable to correspondence for the settlement of a question of this sort and I should like, if Government assented, to meet the Forest and Railway authorities together to thresh the subject out. Objections and refutations or explanations which it takes months to sift by correspondence are quickly settled one way or the other in debate and the real balance of opinion more quickly ascertained.

"4. Such a Committee, consisting of the Agent or Chief Engineer, Southern Marátha Railway, the Collectors of Kánara and Dhárwár, the Conservator, S. C., the Divisional Forest Officer in charge of the Supa Division and the Commissioner, S. D., might, I think, assemble at Dhárwár or here and discuss the disputed questions of bullock or steam tram, the best route for the proposed line, the average length of lead from the forests which would be tapped now and in the near future and their probable yield, &c. The period each year during which the railway could be worked would be very limited and this alone makes me doubt if the working expenses have been sufficiently highly estimated."

Sir

I have the honor to forward the annexed Communication from the Commissioner of Police dated 25th instant with Enclosures, relative to a demand made upon Rao Bahadoor Goobrao Anajee Dufturdar to the Collector of Dharwar by you, for the sum of Rupees 14-4-4 on account of the pay of certain Carcoons employed to arrange the Dufturs of the late Accountants Cutcherry and to estimate my opinion that, unless it can be shewn that no one touched the Dufturs since they were

were left by Lowrie, and that they were found 18 years afterwards in the state in which he left them, I do not see how he can be fined or called upon to pay for neglect which apparently is not proved against him.

2nd I request the favor of your returning the accompaniments to this letter.

Letter from Sarah Rose acquainting Defendant
with any matter to the Comp. of the New Cons.
Forwarded in original for the consideration
of the New Cons. S. D.

Complaint that Sarah Rose Defendant was for
some years in the office of the 2nd a Magistrate
Belgrave and proved herself a most
intelligent zealous and careful public
servant - very methodical and accurate -

The undersigned considers the charge
against Sarah Rose not having taken care of
his Daughter 20 years ago is unjust and
unfair and totally opposed to his habits -

If the New Cons. considers that in any
ground whatever the charge of the N. Ch
is due - the undersigned requests to be
informed to that effect as he prefers
paying it himself rather than that it
be enforced to the annoyance & vexation of
any meritorious ratier Officer of the Parish

up with leather and other miscellaneous papers

These records were kept in the shelves, which are now in the Collectors Gallery. If it is traced by whom the records were removed from the shelves, then it would be known who became of the letters & Records, which were kept in order. The Papers were arranged according to the years & kept there- in order & it is therefore known to Mr. Bellenden I have often requested him to make reference to that & ascertain the truth of my statement but he did not Comply with my request.

I have also Examined, in the year 1845 records & I have kept them in the Collectors Office when I was as a Examiner in the 1855 - and in other Offices the Records were arranged after the year 1855 - & in same other Offices the heads of Departments changed.

In this Lawar Zillah the Papers are not still arranged. & it is now Commenced to arrange them -

Papers were arranged in the Collectors Cutcherry at Bellary but they were arranged by the Extra Careoon & Cutcherry Careoon. But they are paid by the Officers, Careoon employed in that Department.

I am wanted hard to arrange the records & Papers & the records in order, & keep so

were tied into a bundle, which is called duplicate. These books and papers were kept in the shelves in order, as they were left. In the year 1840 as I was transferred I gave over charge to Hammut Now Loobojee Caraos and obtained the signature of the Records. The Record Books, they are likely the Cautcherry Translation Books, they are likely the loodees. Copy of the list is annexed.

Hadjee Caraos in his report states that the Papers are loodees. In the list you will find that there are 6 bundles tied with 6 pieces of cloth. It is therefore quite plain that there were 6 bundles at the time of my giving charge.

It is about 18 years since I left the situation and many circumstances on the duties of the Records were not in their present state. A great difficulty I found at the time of taking charge, I had upon a look. This situation not entirely with the duties of the Native Commissioner, therefore not sufficient for the records of the Northern Division. In the year 1826, the Zillah of Burdwan was separated when I was not in that Division. Records up to the Caraos are for the records previous to 1840. However I kept them in order.

I am directed to pay the sum of Rupees Rs.-14-4-

Should your Honor find any objections against the

your Honor may communicate to the Collector of Belgaum

to withdraw his orders, otherwise, if your Honor

Submitting, for instructions, a letter from the Collector of Belgaum No. 155, of 19th February 1859, and subsequent memo. No. 188, of 28th idem, relative to a demand of Rupees 14-14-4 made upon Rao Bahadoor Goorao Ayaee, Dufturdar of Dharwar, on account of the expense of arranging the Dufturs of the 2d Assistant's Office at Belgaum for the years 1837/38 & 1840/41, and 1842/3, and 1843/4.

Dec. 30 April 1859.

Agreed

R. J. No 2020.

The Collr of Belgaum has preferred a claim for Rs 14 14. 4. against Rao Bahadoor Soobrao Ayaj (Dufterdar to the Collr of Dharwar) on account of his share of the expense incurred in arranging the Duftur of the 2d Assistant's Office from 1837/8 to 1840/1 & 1842/3 to 1843/4 during which periods Soobrao Ayajee was a Member of that Establishment.—

2 Rao Bahadoor Soobrao Ayajee has remonstrated against this demand alleging that he has correctly arranged the records while they were in his charge; and that he is not responsible for any disarrangement which may have taken place subsequently to his leaving the 2d Assistant's Office 20 years ago.—

3 The Revenue Commr S. D. does not perceive how Rao Bahadoor Soobrao Ayajee and the other Subordinates can be held responsible for any disarrangement of the 2d Assistant's records after a lapse of 20 years — Mr Inverarity refers Govt for his opinion on this case to his communication No 663,

R. J. No 2021. dated the 31st March 1859.—

Resolution

His Lordship in Council is of opinion that it is wholly unjustifiable to call on Soobrao to pay for arranging records now in disorde but with which he has had no connection whatever for twenty years.— He should be relieved from the demand.—

No 431 of 1859

Belgaum Collector's Office
9.6th May 1859

The Collector of Belgaum has the honor to state that the same necessarily exists for arranging

arranging the old records of the 2d Assistants' Office as for arranging those of the other Assistants. The point has been insisted on at such lengths, and so many reports and returns regarding it have been required as to make it apparent that great importance is attached to it.

2d The 2d Assistant in a letter of the 24th instant writes as follows. -

> "I have the honor to inform you
> "that I consider it quite impossible
> "that my establishment can arrange
> "the old Records of my Office.
> "2d During last year and the years
> "of 1857, I made as you are aware,
> "one of my Carmen devote some time
> "each week to the arrangement of the
> "old records, but as yet they have only
> "been separated according to years,
> "the Revenue and Police Papers are all
> "mixed together, and there is no sort of
> "Catalogue. To separate the Papers
> "and index them, would be a work
> "requiring considerable time and labour,
> "and judging from the inconvenience
> "I was frequently put to, by giving a
> "Carman one day every week last
> "year, I have no hesitation in saying,
> "that the work could not be done by
> "my Establishment."

3d In the Collector's own Office the time of the Porters is completely taken up with the Temperature duties and they have no time to spare for the performance of the work which should have been done years ago by the Porters of the 2d Assistant's Office.

4th The alternative of calling in the Village Porters to do this work is inadvisable, as it would be likely to occasion great inconvenience to the general business of the District, and as the Porters would have to be allowed Batta it would be nearly as expensive as entertaining extra Porters. -

incidents to the Arrangement of the Records of the Segaon Mamledar's Cutcherry.

2. This Correspondence is submitted Entire, in order that His Lordship in Council may see all that has passed on the subject, and to be better able to decide upon the question at issue, which is, whether Government or the Collectors subordinate, are to bear the Cost of Arrangement of the Records and, if the latter, whether it should fall on the individuals Employed in the Segaon Cutcherry between 1848 and 1857, or on the Mamledar and Head Carcoons, who held Office from 1837 to 1853.

3. The Officer who first disposed of the question was the late Col. Lester, who, on the 21st November 1853, directed that payment to the Extra Carcoons employed on this duty, should

should be made from the salaries of the persons serving in the Deccan Circle: = by, between 1848 and 1857, in proportion to the salary drawn by each. It does not appear, however, that the amount re: = covered, much under dispute was, at the time, recorded. Meanwhile, Mr. Law's successors in office appear to have entertained different views as to the parties on whom the responsibility should rest and hence no final de: = cision has yet been passed in the case.

4. For the arrangement of these Records, 2 Parsees were employed on salaries of 6 Rupees each per mensem, from May 1854 to the 12th June 1855, a period of 13 months and 12 days. The total amount payable to them is Rupees 209-12-5; of this sum Rupee 86-11-10 have, under Mr. Law's orders, been already re: = covered

covered from the Cutcherry subordinates, Arrears Rupees 123-1-7, still remain for Recovery.

5th The present Collector, Mr Ogilvy, considers this a fine on his Establishment, authorized by the provisions of Regulation XVI of 1827, Section IX, Clause I. It does not, however, appear to me that the Law quoted is applicable to a Case which occurred 3 years before the Collector's order was issued. The Confusion in the Records of the Cutcherry, would seem to have occurred even prior to the year 1848, or more than 11 years ago. It is nowhere proved that this Confusion is the result of neglect or Carelessness on the part of particular individuals; and it is not improbable that the innocent have

been

been confounded with the guilty. Con-
sidering the circumstances, therefore,
it appears to me better that government
should bear the entire cost of the
arrangement of these Records, and
to this measure I accordingly solicit
the sanction of His Lordship in Coun-
cil.

Sir,

I have the honor to forward herewith a precis of a most uninteresting mundane correspondence which commenced on the 8th October 1851 and which cannot be said as yet to be finally disposed of.

2. As I have given the substance of nearly every order and reply I need only on this place touch on the most salient points.

3. Hirsingjee Jeyram a Jummadar Sheristadar of the 1st Punkajeer Salootra on the 22nd July 1851. and on that date formally reported in so many words that the "balances & records were correct according to the Calalogues."

4. This seems to me to be only fault he has committed throughout but it is not urged against him in this correspondence and as he repaired on the 8th October when he sent in a fresh report of the actual state of the records it should not weigh much against him.

5. The accuracy of his report was questioned a portion of the records were examined the results reported and on the 14th June 1852 he was ordered to

to rearrange the whole duster and prepare a new Catalogue.

6. Notwithstanding that he had no extra Record assistance, the absence of his head Carkoon - the sickness of his establishment a change in the 1st Instructions which were only settled on the 8th Febru 1853 still on the 15th June 1853 he was able to report on his transfer to another office that he had arranged [redacted] & 1st and "account" correspondence and part of the Magisterial that it only remained for the Catalogue to be rewritten & that the work might be completed in about 6 months

7. His successor Mr [redacted] did not report the actual state till the 31st August 1853 - when he informs the Assistant Collector Mr Stewart that [redacted] had come on & all the arranged records were exposed to & had been hurriedly carried under shelter and that the whole records were once more a mass of confusion.

8. There was no help for it now a new Catalogue must be written and the record rearranged. Accordingly with the sanction of the Collector Mr Saw two temporary Carkoons were engaged who after 13 months and 12 days labour at a cost of Rs. 12. 5 have only completed the "accounts".

9. After correspondence it was settled that Khushnaye Jyram and his head Carkoon who had done their duty in reporting the actual state of the records as soon as it came to their knowledge were not to blame - & that the expense should be borne by all those employed on the -

Seegaom

Nagpore Collectory between the date of the first
report on the subject (8th October 1851) and 1848
when Mr Reid the former Collector had reported the
records up to be in good order except that the "Shej"
or running number was not written on the head
of the papers.

10. A difficulty occurred in collecting the
money. The Rose took a different view of the matter
suggested to the Revenue Commissioner that
Government should bear the expense and finally
the Revenue Commissioner it appears is about
to decide that the fine shall fall on Krishnajee
Pyam and the Mamlatdars and Head Cutkoons
employed in the Office from 1851 to 1853.

11. After a very patient perusal of this long
correspondence for the third time I have arrived at a
very strong conviction that this heavy punishment is
undeserved by Krishnajee Pyam and his head Cutkoon

12. I believe it to be impossible for the
native officers employed under my immediate super-
intendence to discharge their duties with zeal
unless, whilst convinced by daily experience that
I will allow no serious fault to pass without notice
they can rely on me to the best of my ability to try
and shield them from punishment at the hands of
our common superiors which I think undeserved.

13. It is with great reluctance that I
have interfered in this matter at all as I extremely
dislike the idea of being thought to take the part
of this officer or of that whom I would be quite
ready myself to punish tomorrow if I thought
it necessary. I therefore in the first instance

Handed

handed on the papers without remark and only recorded my opinion when you ordered me to do so. I feel that my motives may be misinterpreted but I likewise feel that it is due to the public character of Krishnajee Sgram to turn the right and to do that for him which I trust my superiors would do for me were I similarly circumstanced.

11th. On my arrival in this Villak I found Krishnajee Sgram Mamlatdar of Ranebednore. His conduct had been much commended by Mr. Arthur. He was soon after promoted to the Sunka poor Talook where he gave me every satisfaction in every part of his work. On the transfer of the former Mamlatdar of Hoobly he was removed to that Talook and up to this sustained his good reputation. Not long since he was, during a time of much excitement chosen by you to go to Dummul.

15. I cannot think it consistent with my duty, to permit in silence such an officer to suffer what I think to be undeserved punishment merely from a delicacy in stating more prominently my own opinion. I trust therefore that I need offer no apology for taking the unusual step of venturing to differ in this subject from the decision of so high an authority as the Revenue Commissioner.

16. I cannot expect that my opinion can carry much weight. I must therefore fortify it by pointing out that it is the same as that of Mr Goldfinch, Mr Pan, Mr Stewart, Mr Rose & yourself in short of every officer who has

has been connected with this case in the office and who all agree in this point at least viz in not fixing the blame on those who first reported the confusion of the records.

17. I have the great satisfaction of concluding this long letter by reporting that the subject of the vernacular correspondence has been finally disposed of. The duftur of the Sirgaon tuluq has been purged & catalogued and is now in good order. Never more I trust to fall into confusion. I examined it thoroughly two days ago.

Substance of a correspondence relative to the records of the Mamlatdar's Office at Sirsgum - Taluka N. Kanara.

---

22 July 1851. Krishnajee Sirsum reported that he had taken charge of the N. Kanara Mamlatdar's Cutcherry and that the balances of last year were correct according to Catalogue."

8th October 1850 a Head Officer forwarded report from new Head Carkoon detailing actual state of records 1. No numbers ("Shez") number had been put on the papers 2. The [illegible] taken out for reference had not been returned to their own place. 3. Papers relating to Villages transferred to N. Kanara had not been catalogued That there were no Carkoons to spare more than 1000 roomals to examine and put in order and the work would occupy more than a year.

Mr Goldfinch sends for the explanation of the Head Carkoon first relieved.

This explanation of Trimmul Rao Ankut states that he had been barely a year at Sirsgum and had not examined every paper had merely tested the correctness of the catalogue slightly had had no time for rearranging the records; that the disorder must be the fault of the inferior carkoons & it might have arisen during the two months elapsed since his departure.

Mr Goldfinch ordered the new Head Carkoon to have assistance given him and to set about the work at once to put the records in due order.

Head Carkoon.

Head Cartoon forwards an explanation stating that it would occupy a long time asks for definite instructions and further assistance. Mr Goldfinch did not understand how all the duffus could be in disorder - ordered 50 Roomals to be examined and papers on file.

15th June 1852. The result reported to Mr Law the Collector who on the

19th June 1852 ordered all the papers to be examined - the Numbering (ones) number written on them and a new list to be made - Hee reprimanded the Mamledar for previous delay in replying to reference and ordered further assistance to be given to Head Cartoon.

The Mamledar reported the difficulties in detail asked for distinct orders and states that he thinks on the whole a new list could be made with less trouble than it would take to correct the old one.

2 July 1852. Mr Law replies by ordering the work to be set agoing sends no distinct orders.

27 August 1852. The Mamledar further reports that he will do his best but that with his present establishments it is absolutely impossible to get the work done as ordered before November and asks for the aid of temporary Cartoons.

30 August 1852. Mr Law Collector replied that if delay was unavoidable there was no help.

6th December 1852. Mamledar reports progress has finished the arrangement of the accounts and nearly half of the rest - All the people at Sevgaon are ill with ague - the Cartoons like the

the Asst. asks permission to postpone the work till after the Jummabundy

17th December 1852. Mr Stewart addressed letter addressed the Collector recommending the appointment of Temporary Darkoons to be paid out of the salary of the Mamledar and Head Darkoon.

3rd February 1853 Mr Law Collector endorsed that he had replied to Mr Stewarts English letter in his own hand the tenor date 7th January 1853.

8th February 1853 Mr Stewart ordered the Mamledar to set to work and dispose the useful from the useless records and then advt for further instructions when the Asst. Collector left Sangam.

31st August 1853. The new Mamledar Venkatrao Atmaram replied to this by referring to other correspondence which is the following.

15 June 1853. Vrishanjee Jyram reports to Mr Stewart that he has been transferred to another appointment. that he had carried out the orders of the 8th February that the accounts revenue correspondence had been arranged that the work might be completed in 6 months He begged that the new Mamledar might be cautioned to take it up with diligence.

6th July 1853. The new Mamledar was ordered to report the state of affairs on assuming charge.

31st August 1853 He reports as follows: all dusters had been opened in pursuance of order that all the papers were in the veranda of the Cutchery - rain came on the roof leaked - the papers were carried inside in

Confusion tied up in bundles. That the old Catalogue was not absolutely worthless but that as the papers were all in a heap a new one must now be made out asks for two temporary Cartoons at 5 and 8 rupees.

30th September 1853. Mr Stewart asked permission of the Collector to appoint these Cashroos and pay them out of the salary of all those who had been employed in the Sheristadar Cutchery for the last five years viz. 1846 to 1851.

Mr Law asked why the late Mamlatdar and Head Cartoon were exempted.

20th October 1853. Mr Stewart replied that these Officers had done their duty in reporting at once the actual state of the records and were not to blame.

26th October. Mr Law refers to Mr Stewarts English letter No 71. & 75

16th November. Mr Stewart replies and refers him to former proceedings.

21st November 1853. Mr Law Collector replies that a Mr Bell in 1848 reported to the Revenue Commissioner that the records were all in order except as to the "Thez" number and therefore the payment of the temporary Cartoons must fall on the salaries of those employed between 1848 and 1851.

24th November 1853. Mr Stewart ordered a Tabel to be made out accordingly up to the date of Krishnaji Shyamji's final report on the subject.

It was sent.

22nd December 1853. Mr Stewart asked the Collector

Collector to enforce the order on officials not in Mr Stewarts jurisdiction.

(Here this correspondence closes as far as the records are concerned)

12th October 1854. Mr Rose Collector addressed a Yadee to the Revenue Commissioner describes the previous correspondence & pleases that the fine cannot justly be levied and suggests that the expense should be borne by Government.

28th October 1854. The Revenue Commissioner asks for further information.

22d August 1855. Mr Ogilvy Collector replies impossible to fix the responsibility. The disorder arose from 1 absence of the Shej mumbee - 2. transfer of Villages - 3. Carelessness in not replacing papers taken for reference - 4. from attempt to make out a new catalogue. That Mr Bell had on 1848 reported the records in good order except the absence of the "Shej" mumbee.

26 June 1856. The Revenue Commissioner decides that Krishnajee Syram did not put the records in order during the time he was in charge of the office and that the money is to be paid by the Mamledars and Head Carkoons from 1851 to 1855.

8 September 1856. Krishnajee Syram owes more the Mamledar of Peint Kafeer first an explanation. 2. On assuming charge he only counted the drafters - he waited for thorough examination till the arrival of the Head Carkoon 2. who examined and reported. 3. That an examination of 50 Joomals was ordered and made. 4. That he

finished

himself prefered to retain the old Catalogue -
but that 5. Mr Law on the 19 June 1852
ordered the whole of the records to be examined
and a new Catalogue made. (6) That he
defeated all the difficulties but (7) on the 2nd
July was ordered to separate the useful from
the useless records - (8) that his Head
Cashoon went on leave for 4 months and
his whole establishment was paralized with
sickness - (9) that he reported - asked for more
time and obtained it - (10) That Lehon sent away to
another Talook the work was well advanced:
(11) and that if his measures had been carried
on by his successor with proper energy the
whole would have been finished - (12) that his
duftur was once more put in confusion - -
(13) Temporary Cashoons were given & employed
for 13 months and 12 days but that only
the "accounts" had been arranged and
catalogued - (14) that the cost 209. 12. 5.
of which 123. 1. 7 is unpaid
9 February 1857. (15) Mr Gordon Assistant Collector
by order gives his opinion in favour
of the Mamlatdar's Kishmagee System.
31st December 1857. This was forwarded to
the Revenue Commissioner.
5th May 1858. The Revenue Commissioner
(Mr Inverarity) asked for a distinct answer
to one of his predecessors previous questions,
viz - "Mr Tell in 1848 reported that it only
"remained to write the "shej" numbers and that
"the records were (otherwise) in good order
"up to 1850 - (16) and Mr Gordon states that the old
Catalogue

"Catalogue has been altered - From this it
"appears that the Officials before 1848 cannot
"be to blame - Mr Rose says & I agree with
"him that the Cashcoons should not be fined
"and therefore I think that the Mamledars
"and Head Cashcoons from 1851 to 1853 should
"bear the expenses and that those Cashcoons
"who have been fined should be repaid".

No. 113 of 1859.

Bhawani Collector's Office

Camp Seegaum

29th January 1859.

In reply to the Revenue Commissioner's Indorsement No. 44 dated the 7th Instant the Collector begs to observe that it appears to be difficult to fix the precise time when the Seegaum records fell into confusion. The Collector, Mr. Bell, having reported to the Revenue Commissioner in 1848 that they were then in order with the exception of the Khez number, his successor, Mr. Law, held that the state of confusion should date from that year, 1848, and therefore decided that the payment of the temporary Cutcherry should fall on the salaries of the Officials employed in the Cutcherry from 1848 to 1851. Krishnajee Seeram who assumed charge of the Seegaum Cutcherry on the 21st August 1851 was not considered blameable because he had reported the state of the records.

2. The Revenue Commissioner Mr. Reeves, however, expressed an opinion under date the 26th June 1856 that Krishnajee Seeram

Iswar had not put the records in order while he was in charge of the office and was therefore that cost should be paid by the Inamdistdars and Head Quarters from 1851 to 1853.

Ved it appears that Krishnajee Iswar reported to the Assistant Collector Mr. Stewart, on the 15th June 1853 that he had, according to orders, arranged the accounts and the revenue correspondence of the office and suggested that his successor should be desired to continue the arrangement of the records diligently.

4. He seems to have taken the records from their shelves for the purpose of arranging them, and his successor, Venkatrao Bahadoor apparently not understanding his predecessors proceedings, reported on the 31st August 1853, a month after he had assumed charge, that he had tied up the papers in new cloths and put them aside in an incomplete state of arrangement, as he found them (the records were not finally rearranged until the 30th September last.

5. Should it not be thought right that the expense, should, as recommended by the late Collector, Mr Rose, fall upon Government

Government, it may be judged proper to levy the amount of expense incurred from the Mamlutdars and Head Carkoons employed in the Kutcherry between the year 1848 and the 30th September last.

6. As observed in Mr Gordon's 8th para the expense incurred in arranging the records has amounted to Rupees Two hundred & nine annas twelve and pies five of which Rupees one hundred & twenty three anna one and pies seven remain unpaid. Rupees Eighty six annas eleven & pies ten were levied from the Office subordinates under Mr Law's order of the 21st November 1853.

Rs 209. 12. 5

Rs 123. 1. 7

Rs 86. 11. 10

7. It is for the Revenue Commissioner and Government to decide whence the expenditure should be met and whether the sums aggregating Rupees Eighty six, annas eleven, & pies ten should be repaid to the Carkoons from whom they were levied.

Rs 86. 11. 10

8. It appears to have been the opinion of the late Collector Mr Rose, that the expense should fall either on the superior Officers of the Kutcherry or on Government, and of the late Revenue Commissioner Mr Reeves, that it should

fall

fall on the Manufacturers and Head Carkoons employed in the office between the years 1854 and 1863. From the details given above the present Collector thinks that the amount of cost might be levied from the Manufacturers and Head Carkoons who have resided in the Seegaum Kutcherry between the year 1848 and the 30th September last.

The Revenue Commr S. D. submits a correspondence between his Depart.t & the Collr of Dharwar on the subject of the liability of the Local Native Establishment for the cost incident to the arrangement of the Records of the Seegaon Mamlutdar's Cutcherry in that Collectorate.

2 It appears from this correspondence that Krishnaji Ipram, Mamlutdar of Seegaon was directed, in June 1852 to arrange the Records which he had then reported to be in disorder. He had arranged a portion when he was transferred to Ther Mamlut in June 1853. His successor was however unable to continue the work owing to various causes. In Sept.r 1853, two temporary Carcoons were employed on this duty under instructions from the late Collr Mr Law who further ordered that they should be paid from the salaries of all those that had been employed in the Seegaum Cutchery from 1848 to 1851.

3 The temporary Carcoons had been employed for 13 months & 12 days. Their salaries amounted to Rs 209. 12. 5, of which Rs 86. 11. 10 were recovered under Mr Rivers orders, & Rs 123 1. 7 still remain for recovery.

4 A question was subsequently raised by Mr Rose then Collr as to the legality of recovering the above fine from the Establishment. He suggested that the expense incurred should be borne by Govt. After a long correspondence, the late Revenue Commr, Mr Reeves decided "that the Carcoons should not be fined, and therefore I think that the Mamlutdars & Head Carcoons from 1851 to 1853 should bear the expense. That those Carcoons who have been fined should be repaid".

5 Mr Inverarity reports that the question now for decision is whether Govt or the Collector's Subordinates should bear the cost of arranging the Records & if the latter whether it should fall on the individuals employed in the Seegaon Cutchery between 1848 and 1851 or on the Mamlutdars & Head Carcoons who held office from 1851 to 1853.

6 The confusion in the records of the Seegaon Cutcherry appears to Mr Inverarity to have occurred prior to the year 1848 or more than 11 years ago. "It is now to be proved" he states "that this confusion is the result of neglect or carelessness on the part of particular individuals; and it is not improbable that the innocent have been confounded with the guilty", adding "Under all the circumstances, therefore, it appears to me better that Govt should bear the entire cost of the arrangement of these Records and to this measure I accordingly solicit the sanction of His Lordship in Council".
